OKLAHOMA BULLETIN NO. OK170-4-1

SUBJECT: CGI – Oklahoma Supplemental Planning Symbols For ArcView

Purpose: To provide information on new GIS Conservation Planning Symbols

Expiration Date: September 30, 2004

New conservation planning symbols have been remotely added to the Conservation Planning Symbol palette used in CST/ArcView. The new symbols were developed from the Oklahoma Supplement to the National Map Symbol Handbook, and include many point symbols commonly used in Oklahoma that were not available on the national conservation planning symbol palette.

Attached is a pdf document that shows the new symbols that were added. The new symbols should now be available to you, but if the new CST/ArcView symbol palette is not available or is empty, please restart your computer before calling Jim Henley, GIS Manager.
